BRIEF SUMMARY

I am Chirag Kumar, a passionate and detail-oriented fresher aspiring to be a full-stack developer. With a strong foundation in the MERN Stack,Java, I bring both technical expertise and excellent communication skills to the table. I am currently pursuing my B.Tech in Computer Science from Parul University, I developed "Artify," a text-to-image generator project that showcases my creativity and problem-solving abilities. I am eager to contribute to innovative teams and grow in the dynamic field of web development and problem solving skills.

KEY EXPERTISE

Problem Solving | Leadership Skills | Data Structures | Web Development | Software Development | C++ | Coding

EDUCATION

Parul University — 2022 - 2026
B.Tech. - CSE - PIT | CGPA: **8.23** / **10**

Shree Ajit Vidhya Mandir Shikshan Sansthan,Sirohi, Sirohi — 2022
12th | CBSE | Percentage: **79.80** / **100**

Shree Ajit Vidhya Mandir Shikshan Sansthan, Sirohi, Sirohi — 2020
10th | CBSE | Percentage: **69.30** / **100**

PROJECTS

Portfolio — 02 Aug, 2025 - 21 Aug, 2025
Team Size: 1

Key Skills: HTML | CSS | Tailwind | React.js | Javascript | GIT | Github

Project Link: https://chiragrawal.vercel.app/

This project is a modern, responsive skills showcase component built with React and TailwindCSS, designed to highlight technical expertise in a visually appealing and organized format. The component displays a grid of technology icons with labels, providing a clean and interactive way to represent key programming skills. It leverages the react-icons library for popular technologies such as JavaScript, React, Node.js, MongoDB, and PostgreSQL, while also incorporating a custom-designed SQL Server icon to ensure a complete representation of the tech stack.

The project emphasizes UI/UX best practices with hover effects, shadows, and smooth transitions to enhance user interactivity. The layout is fully responsive, adapting seamlessly across different screen sizes using a grid system. TailwindCSS was used to ensure clean styling with minimal CSS overhead, making the design scalable and easy to maintain.

A major highlight of this project is handling missing assets gracefully. Since certain technologies (like Microsoft SQL Server) are not available in react-icons, I implemented a custom SVG component to represent them, ensuring consistency and flexibility in design. This demonstrates problem-solving, attention to detail, and the ability to integrate both standard libraries and custom solutions.

Overall, this project showcases not just frontend technical knowledge, but also the ability to deliver a polished, production-ready UI component that can be reused in portfolios, resumes, or larger web applications.
